

Presidential Park Construction Update August 14, 2024

The Village is excited to share that construction has rounded second, and we are halfway home!

Project improvements are 50% complete! The contractor has been preparing for curb pours around the parking lot and artificial turf of the baseball fields. Foundations for the parking lot light poles and the brick veneer for the storage facility were also installed. The contractor also continued framing for the new roof truss system on the new storage facility and restroom.

Next week, the contractor will install the brick building exterior for the restroom facility and pour concrete for the curbs at the baseball fields, playground, and parking lots. The contractor will also install the plumbing and electrical fixtures at the new facilities.

Brick veneer for the storage facility

Framing for new restrooms
