

Presidential Park Construction Update December 4, 2024

It's the Top of the 9th Inning!

The project is in its final stretch and is nearing completion! Recently, the contractor placed the binder lift (bottom asphalt layer) in the parking lot and completed the installation of all playground surfaces. This week, the contractor will pour concrete for the seat walls and sidewalks at the new restroom facilities.

Due to the early appearance of winter weather, the final landscaping restoration around the park and asphalt surface on the parking lot will be completed first thing in the spring, just in time for baseball season!
